

ARMADILLO (RAINFLY KIT OR FULL SHELTER)

BRIEF

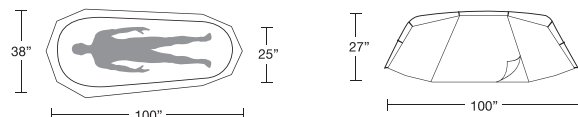

The Armadillo was born from a request by the United State Marine Corp. A lighter rainfly solution was needed for the system, so we set out tailoring our original fly design to fit their need. We reduced the weight by about a third while maintaining the mil-spec toughness of the fly. The major difference between this rainfly and the Wolverine is the lack of vestibule space, regarded by the Marines as an expendable luxury. Internal loop attachments allow the rainfly to remain attached to the Burrow during storage, further decreasing setup time. This simplified configuration caught the attention of Special Forces users, and they became some of the first buyers of the Armadillo system.

NUMBERS:

- 98602 - Armadillo Rainfly Kit - Coyote - Import
- 98632 - Armadillo Rainfly Kit - Coyote - Berry Compliant
- 98642 - Armadillo Rainfly Kit- Multicam - Import
- 98652 - Armadillo Rainfly Kit - Multicam - Berry Compliant
- 98696 - Armadillo EBNS (w/ Burrow) - Coyote - Import
- 98697 - Armadillo EBNS (w/ Burrow)- Coyote - Berry Compliant
- 98698 - Armadillo EBNS (w/ Burrow) - Multicam - Import
- 98699 - Armadillo EBNS (w/ Burrow) - Multicam - Berry Compliant

SPECIFICATIONS

<i>Sleeps:</i> 1
<i>Weight:</i> 1.4 lbs. // .62 kg
<i>Weight w/ Burrow</i> 3.25 lbs. // 1.5kg
<i>Center Height:</i> 27" // 68 cm
<i>Fly Material:</i> 70D Hybri-lite Ripstop
<i>Pole Material:</i> Aluminum
<i>Packed Dimensions:</i> 13" x 5" x 5" // 33cm x 13cm x 13cm
<i>Number Of Stakes:</i> (8) X3 7-inch composite stakes
