SWITCHBLADE™

MODULAR PACK SYSTEMS

BY

CATOMA®

ONE FRAME: ANY FIT, ANY LOAD, ANY MISSION.

Comfortable and Functional

The shoulder straps have been painstakingly reviewed and prototyped to be padded enough to enable long rucks, but not add unnecessary weight or bulk to the frameset.

Patented CHIEF Framesheet

Made of tough carbon fiber composite, the framesheet of the Switchblade is built for the demands of the modern warfighter. It offers vertical and horizontal sizing and unparalleled strength. US Patent Nos. D630011 and 8678258 B1.

Sleek, No-fuss Features

Features like reinforced surface-mount buckles eliminate wasted material and snag points.

Configurable Retention

Multiple pass-through elastic points on the shoulder straps allow the user to attach comm. devices, hydration tubes, or other auxiliary gear as desired.

Articulating Belt Design

The belt attaches to the frameset at a single reinforced point. Allowing the belt to swivel with the user's hips eliminates pinch points and increases mobility and comfort for the user.

Ergonomic Back Padding

Multi-piece, adjustable padding system to conform to the frame fitment of the user and create channels for proper ventilation.

MODULAR DESIGN

=

DIVERSE SOLUTIONS

Protected by one or more of the following patents:
US 8678258 B1, US 10231534 B1,
D815981, D630011, and D833749

STACKABLE COMPONENTS

Enabled by Catoma's Patented UniBuckle™ (US Patent No. D815981), Switchblade components can be stacked to customize a user's load carriage suite for the mission at hand. Using the totally customizable platform offered by the Molle Panel as the center layer of the system opens up a world of possibilities for load carriage. From radios to munitions, weapons to medical kits, the sky is the limit for the Switchblade System.

SYSTEMS OVERVIEW

Kits are for individuals; Systems are for teams. Below is the breakdown of which Kits are contained in each of the Systems currently in the Switchblade Heavy Weapons family.

SWITCHBLADE M240 3-MAN TEAM PACK SYSTEM: **NSN 1095-01-681-8668**

MULTICAM

ITEM # 98725-MC - NSN 1095-01-681-8668

INCLUDES:

Switchblade M240 Gunner Pack Kit - 98721-MC // NSN 1095-01-679-5475

Switchblade M240 Assistant Gunner Pack Kit - 98722-MC NSN 1095-01-679-5480

Switchblade M240 Ammo Bearer Pack Kit - 98727-MC NSN 1095-01-681-8873

SWITCHBLADE M240 2-MAN TEAM PACK SYSTEM: **NSN 1095-01-679-5467**

MULTICAM

ITEM # 98720-MC - NSN 1095-01-679-5467

INCLUDES:

Switchblade M240 Gunner Pack Kit - 98721-MC NSN 1095-01-679-5475

Switchblade M240 Assistant Gunner Pack Kit - 98722-MC NSN 1095-01-679-5480

SWITCHBLADE 81MM MORTAR 4-MAN TEAM PACK SYSTEM: **NSN 1095-01-679-6268**

MULTICAM

ITEM # 98751-MC - NSN 1095-01-679-6268

INCLUDES:

Switchblade Mortar Gunner Pack Kit - 98752-MC NSN 1095-01-679-5616

Switchblade Mortar Assistant Gunner Pack Kit - 98753-MC NSN 1095-01-679-6303

(2x) Switchblade Mortar Ammo Bearer Pack Kit - 98754-MC NSN 1095-01-679-6350

SWITCHBLADE 60MM MORTAR 3-MAN TEAM PACK SYSTEM: **NSN 1095-01-679-6247**

MULTICAM

ITEM # 98750-MC - NSN 1095-01-679-6247

INCLUDES:

Switchblade Mortar Gunner Pack Kit - 98752-MC NSN 1095-01-679-5616

Switchblade Mortar Assistant Gunner Pack Kit - 98753-MC NSN 1095-01-679-6303

Switchblade Mortar Ammo Bearer Pack Kit - 98754-MC NSN 1095-01-679-6350

SWITCHBLADE GUSTAF 2-MAN TEAM PACK SYSTEM: **NSN 1095-01-681-8914**

MULTICAM

ITEM # 98760-MC - NSN 1095-01-681-8914

INCLUDES:

Switchblade Gustaf Gunner Pack Kit - 98761-MC NSN 1095-01-681-8650

Switchblade Gustaf Assistant Gunner Pack Kit - 98762-MC NSN 1095-01-681-8641

SYSTEMS AVAILABLE IN COYOTE BROWN, SUBJECT TO MINIMUM ORDER QUANTITIES. CALL FOR AVAILABILITY.

KITS OVERVIEW

Let's get down to brass tacks. Everyone gets a Frameset. Everyone gets a pack body for personal sustainment gear. Layered in between those components can be a variety of carriage solutions for the jobs heavy weapons teams are asked to do.

M240 GUNNER PACK KIT

NSN 1095-01-679-5475
ITEM # 98721-MC

INCLUDES:

Frameset Assault Pack

M240 ASSISTANT GUNNER PACK KIT

NSN 1095-01-679-5480
ITEM # 98722-MC

INCLUDES:

Frameset Molle Panel
(2) 300-Round Pouches Barrel Quiver
Raid Pack Hydrosleeve

M240 AMMO BEARER PACK KIT

NSN 1095-01-681-8873
ITEM # 98727-MC

INCLUDES:

Frameset Molle Panel
(2) 300-Round Pouches Raid Pack
Hydrosleeve

MORTAR GUNNER PACK KIT

NSN 1095-01-679-5616
ITEM # 98752-MC

INCLUDES:

Frameset Molle Panel
(2) Small Munitions Pouches WR Straps
Raid Pack Hydrosleeve

MORTAR ASSISTANT GUNNER PACK KIT

NSN 1095-01-679-6303
ITEM # 98753-MC

INCLUDES:

Frameset Molle Panel
(2) Small Munitions Pouches WR Straps
Raid Pack Hydrosleeve

MORTAR AMMO BEARER PACK KIT

NSN 1095-01-679-6350
ITEM # 98754-MC

INCLUDES:

Frameset Molle Panel
(2) Large Munitions Pouches X-Flap
Raid Pack Hydrosleeve

GUSTAF GUNNER PACK KIT

NSN 1095-01-681-8650
ITEM # 98761-MC

INCLUDES:

Frameset Molle Panel
WR Straps Raid Pack
Hydrosleeve

GUSTAF ASSISTANT GUNNER PACK KIT

NSN 1095-01-681-8641
ITEM # 98762-MC

INCLUDES:

Frameset Molle Panel
(2) Large Munitions Pouches WR Straps
Raid Pack Hydrosleeve

SNIPER WEAPON PACK KIT

NSN 1095-01-681-8953
ITEM # 98706-MC

INCLUDES:

Frameset Molle Panel
WR Straps Raid Pack
Hydrosleeve

KITS AVAILABLE IN COYOTE BROWN, SUBJECT TO MINIMUM ORDER QUANTITIES. CALL FOR AVAILABILITY.

COMPONENTS OVERVIEW

Every component must be equally well thought out. That was our mission at the onset of this project, and we are proud to present this suite to you successfully.

FRAMESET

3.00 lbs.

NSN 1095-01-696-2549

At the heart of the Switchblade System is the modular, adjustable frameset, consisting of the Patented CHIEF Lite carbon fiber framesheet, padded shoulder straps, and a pivoting waistbelt. This is the platform on which all carriage solutions are mounted. (Patents: US 8,678,258 B1, US 10,231,534 B1, D630011, and D833749)

Item # 98669-C (Coyote) // # 98669-MC (Multicam)

MOLLE PANEL

2.55 lbs.

NSN 1095-01-681-8345

The workhorse of the Switchblade Series is the MOLLE Panel, which allows the end user to carry practically anything the mission calls for. In the case of heavy weapons teams, this means munitions, mortar tubes, tripods, and bipods.

Item # 98650 (Coyote) // # 98651 (Multicam)

300-ROUND 240 POUCH

1.90 lbs.

NSN 1095-01-681-8655

Our most popular and robust ammo carriage solution for M240 Teams. Comfortably holds and efficiently feeds 300 rounds of belted 7.62 ammunition. The MOLLE Panel can carry up to three of these, but a maximum of two is recommended simply due to the ammunition's weight.

Item # 98640 (Coyote) // # 98641 (Multicam)

Pair Installed on Molle Panel

WR (WEAPON RETENTION) STRAPS

0.10 lbs.

NSN 1095-01-681-8568

This simple component is incredibly versatile. MOLLE retainers slip through four different MOLLE rungs to distribute weight, and the practically indestructible Voile straps cinch around any weapon, bipod, or irregularly shaped gear. These are sold and delivered in pairs.

Item # 98675 (Available in Coyote only)

RAID PACK

2,750 in³ // 3.05 lbs.

NSN 1095-01-681-8332

Our smaller pack option, the Raid has a volume of 45L for personal sustainment gear (2-3 day) and can be used alone or in conjunction with the MOLLE Panel. Features include dual side pockets accessible from the interior or exterior, dual hydration storage and feed ports, interior and exterior compression, top pocket, and front panel access.

Item # 98655 (Coyote) // # 98656 (Multicam)

BARREL QUIVER

3.00 lbs.

NSN 1095-01-681-8367

This unique component is designed to carry the M240 tripod and spare barrels. Its heat resistant liner allows it to carry the barrels cold or hot off the weapon. It can be hand carried or layered into the user's Switchblade pack configuration.

Item # 98630-FLAP-C (Coyote) // # 98630-FLAP-MC (Multicam)

MUNITION POUCH - LARGE

0.85 lbs.

NSN 1095-01-681-8351

Simple but effective, this munition pouch attaches to the MOLLE panel and can carry four 60mm mortar rounds, two 81mm mortar rounds, or three Gustaf rounds, made possible by internal adjustable dividers.

Item # 98646-C (Coyote) // # 98646-MC (Multicam)

HYDROSLEEVE

0.35 lbs.

NSN 1095-01-681-8933

This simple but versatile pouch holds up to a 3L hydration bladder and can be attached via Molle either vertically or horizontally. On the heavy weapons systems, we recommend mounting it horizontally at the base of the Molle Panel.

Item # 64509-HP-C (Coyote) // # 64509-HP-MC (Multicam)

ASSAULT PACK

3,700 in³ // 4.15 lbs.

NSN 1095-01-682-0885

Our larger pack option, the Assault, is capable of supplying a Warfighter on a moderately long mission (3-5 day). It's on the large side for an assault pack at 60+Liters and works best on its own. Features include a removable lid, top and front access, interior and exterior compression, and dual side pockets for hydration.

Item # 98657 (Coyote) // # 98658 (Multicam)

X-FLAP MORTAR BASEPLATE CARRIER

0.55 lbs.

NSN 1095-01-681-8628

This utility piece can be easily attached or detached from any combination of components to allow the user to carry irregularly-shaped items. Its most prevalent use in the heavy weapons systems is to carry the baseplate of the mortar systems.

Item # 98665 (Coyote) // # 98666 (Multicam)

MUNITION POUCH - SMALL

0.50 lbs.

NSN 1095-01-681-8342

The small version of this pouch offers the user the option of arranging their load in more ways than the large. Design and features are the same. Holds two 60mm mortar rounds, one 81mm mortar round, or one Gustaf round.

Item # 98645-C (Coyote) // # 98645-MC (Multicam)

100-ROUND 240 POUCH

1.00 lbs.

NSN 1095-01-681-8972

The little brother of the 300 round option, the 100 is a more modular and portable solution to carrying belted ammo for the M240, but requires more in-action linking of belts. This is available as an optional customization of the M240 team packs.

Item #64509-ABL-C (Coyote) // #64509-ABL-MC (Multicam)

MODULAR SOLUTIONS TO MEET THE
LETHALITY DEMANDS
